Twenty Years of Victory and Glory Under the Banner of the Democratic People's Republic of Korea

Our people are marking the 20th birthday of the Democratic People's Republic of Korea, the glorious fatherland of the 40 million Korean people, with a great revolutionary self-confidence and high national pride.

The whole country is now full of revolutionary spirit and towns and villages are wrapped in festive mood. The hearts of the people are overflowing with the legitimate pride of victors.

On the historic national day, the entire people of the Republic are burning with the feeling of unbounded reverence for and loyalty to Comrade Kim Il Sung, the respected and beloved Leader, who ensured the lost fatherland and founded the Democratic People's Republic of Korea, the banner of freedom and happiness of the 40 million Korean people, and has led it to the prosperity of today, brought them the worthy life of today and is propelling them to victory of tomorrow, and extend him highest glory and deepest gratitude.

Our functionaries and Party members sent the ardent people, holding aloft the banner of the Republic under the leadership of Comrade Kim Il Sung, the great Leader, have unanimously waged during the last 20 years a devoted struggle at each post of the revolution and construction for the prosperity and development of the fatherland and the building of a new life, frustrating the resistance of the class enemies at home and abroad, surmounting the rigorous trials of the war and pushing aside the war debris. Their hearts are swelling with the honour of being revolutionary soldiers of the great Leader and citizens of the Republic and pride in the revolution, looking back with deep emotion on the proud path embroidered with glorious struggles and brilliant victories.

Our people are greeting this auspicious day with unprecedentedly high political zeal and labour upsurge.

Our heroic working class and other toiling people, infinitely faithful to the instructions of the Leader, have kindled a more fierce flame of great revolutionary upsurge on all fronts of economic construction and achieve unbuilding along the road indicated by the decisions of the Party Conference and the Five-Point Political Programme of the Government of the Republic and made new miracles and innovations everywhere day by day.

The founding of the Democratic People's Republic of Korea—this was a historic event which opened up a new era in the history of our country and the life of our people.

In September, 1948 Comrade Kim Il Sung said at the Pyongyang city mass rally celebrating the founding of the Government of the Republic:

"The founding of the Government of the Democratic People's Republic of Korea opened a brilliant new page in the history of the struggle of our nation for building a sovereign, independent state. As a proud nation with its own government from now on, our people will be always protected by their government and enjoy the prestige, rights and honour as the citizens of the Democratic People's Republic of Korea."

With the founding of the Democratic People's Republic of Korea, our people who remained only an object of exploitation and oppression for a long period and were manhandled and despised as a stateless nation in the past, came to have their genuine fatherland for the first time in history and make a new history and build a new life, lightly holding their destiny in their own hands as the citizens of a full-fledged independent state advancing in the foremost ranks of the world people along the road of socialism.

The Republic is a great gain of the revolution which the Korean Communists and patriotic people won by waging a protracted, arduous struggle for the freedom and independence of the fatherland and the power of the people under the leadership of Comrade Kim Il Sung.

Comrade Kim Il Sung taught us:

"In the grimmest period of Japanese imperialist rule the Communists and the patriotic people of Korea waged a 15-year-long heroic anti-Japanese armed struggle solely for the restoration of the fatherland and the freedom of the people, braving all kinds of indescribable hardships and tribulations...

"Our people's power has inherited the glorious revolutionary traditions of the Communists and the patriotic people of Korea and is a great gain which our people won by a hard struggle under the leadership of our Party."

At a time when the fascist suppression under Japanese imperialist colonial rule reached its zenith and our nation was standing at the crossroads of life and death, Comrade Kim Il Sung, the great Leader of the revolution, held high the banner of the restoration of the fatherland, the banner of the revolution, and waged a heroic armed struggle against the formidable Japanese imperialists under unutterably hard conditions for the long period of 15 years unprecedented in the history of the world revolution, to restore the lost fatherland and establish a genuine people's power which ensures freedom and happiness to workers, peasants and other working people.

Comrade Kim Il Sung firmly established *Juche* of the Korean revolution from the early days of his revolutionary activities, indicated a correct revolutionary line and strategy and tactics for the victory of the Korean revolution on the principles of self-reliance, led the general anti-Japanese national-liberation struggle of the Korean people with the armed struggle as its centre to a brilliant victory personally overcoming all the crises and difficulties lying in the way of the Korean revolution, and eventually defeated Japanese imperialism and accomplished the historic cause of the restoration of the fatherland.

In the course of the heroic anti-Japanese armed struggle organized and waged under the personal leadership of Comrade Kim Il Sung, the glorious revolutionary traditions of our Party and army, filled with rich and versatile contents, which are the source of the victory of the Korean revolution, were established and a solid foundation for the building of the people's power was laid.

Already in the period of the anti-Japanese armed struggle, Comrade Kim Il Sung set forth a new line of people's revolutionary government by developing with originality the Marxist-Leninist theories on the question of power and state construction and clearly defined the character and duties of the power to be established in the future, and founded a revolutionary power in the guerrilla base—liberated area and enforced democratic reforms. All these precious experiences and exploits served as a firm basis and guideline in the struggle for founding a people's power after liberation.

The Democratic People's Republic of Korea founded under favourable strength as a genuine people's power and it prospers and develops steadily as the days go by, because it sprang from the deep and strong roots of the revolutionary traditions of the heroic anti-Japanese armed struggle organized and waged under the leadership of Comrade Kim Il Sung.

Under the wise guidance of the respected and beloved Leader Comrade Kim Il Sung, our people formed the northern half of the country into a firm base of the Korean revolution, upholding the line set forth by him of creating a revolutionary democratic base, under the complex situation created by the occupation of South Korea by American imperialism following the country's liberation, smashed the machinations of the reactionaries at home and abroad for national division and founded the Democratic People's Republic of Korea, and defeated the armed aggressors of 16 countries led by U.S. imperialism in the Fatherland Liberation War and saved the American imperialists on the downgrade.

Upholding the creative lines and policies put forward by Comrade Kim Il Sung, our people effected the great socio-economic change of liquidating once and for all the source of age-old exploitation and oppression and thus established the most advanced socialist system and built up a strong socialist power independent in politics, self-sustaining in the economy and self-defensive in national defense by carrying out a great construction work at the speed of Chollima.

The people who had been oppressed and downtrodden for a long period, the working people who had languished in ignorance and poverty, have become today the legitimate master of the country, the master of all the means of production and possessor of technology and culture; all the people, with the same aim and aspiration, are doing worthy work for the prosperity and development of the socialist fatherland and living in happiness, uniting and co-operating with each other.

Never before in the thousands of years of history of our country have the entire people formed such unbreakable and invincible revolutionary ranks, rallied with one ideology and one will around the great and outstanding Leader, as today, and have they ever achieved such a great national prosperity and demonstrated such national resourcefulness, dignity and glory to the whole world, with such strong independent national economy and brilliant culture and self-defensive national defences that are strong as steel, as today.

All the epochal changes that have taken place in our country and the great victories and successes scored in the political, economic, cultural and military spheres in the past 20 years under the banner of the Republic are a fruit flower of the brilliant leadership of Comrade Kim Il Sung, the great Leader of the 40 million Korean people, who has devoted his all entirely to the freedom and happiness of the Korean people and the independence and prosperity of the fatherland and to the victory of the cause of socialism and communism in Korea for 40 years and more up to this date since he started his revolutionary struggle in his early years, and a brilliant embodiment of his great revolutionary ideas.

The idea of *Juche* which is run through with the principles of independence, self-sustenance and self-defence is the great revolutionary idea of Comrade Kim Il Sung which he has invariably upheld from the days of the anti-Japanese armed struggle.

Comrade Kim Il Sung said:

"The Government of the Republic has been able to score great victories and successes in the revolutionary struggle and construction work, because it has endeavoured consistently to solve all problems in an independent manner, in conformity with the specific realities of our country and mainly by its own efforts, invariably guided by the idea of *Juche* of the Workers' Party of Korea in its activities and adhering strictly to the Marxist-Leninist principles."

The course of the development of our revolution and the path traversed by the Republic were not smooth ones.

But Comrade Kim Il Sung, always holding fast to the stand of *Juche*, put forth clear-cut and orientated lines and policies at each stage and in each period of the development of the revolution on the basis of a concrete analysis of the actual conditions, not sticking to any existing formula or experience and victoriously solved all the questions arising in the revolution and construction, overcoming all difficulties with an indomitable will and exceptional revolutionary sweep.

Comrade Kim Il Sung correctly grasped the concrete realities of our country and the ripe demands of the socio-economic development after the war and set forth the creative line on transforming the economic forms before the technical transformation of the national economy and skillfully organized and guided its implementation, thereby making it possible to fulfil in the brief span of time of four to five years the difficult and complicated revolutionary task of transforming the relations of production in the rural and urban areas along socialist lines.

Comrade Kim Il Sung who put forth the original line of building an independent national economy right after liberation and exerted great efforts for its implementation, set forth after the war the creative and revolutionary line of economic construction on giving priority to the growth of heavy industry with simultaneous development of light industry and agriculture on the basis of his deep insight into the conditions of the country and the laws of the development of the revolution. After indicating correct ways for carrying through this line, he went himself into the midst of the masses and kindled the flames of the Chollima movement and powerfully organized and mobilized the whole Party and the entire people to its implementation.

After the establishment of the socialist system, Comrade Kim Il Sung, an outstanding Marxist-Leninist, correctly solved in an original way the theoretical and practical questions that cropped up newly in socialist and communist construction, to which no one has ever given any answer and in which no one has any practical experiences, and thus steadily deepened and developed our revolution and construction onto a higher stage.

Comrade Kim Il Sung created the great Chongsan-ri spirit, Chongsan-ri method and thus helped the Party, state and economic organs radically improve the work system and work method to suit the nature of the socialist system and set up in an original way the Daean work system and the new system of guiding agriculture, the most revolutionary and scientific system of management of the economy by embodying them in the sphere of the management of the economy.

In the "Theses on the Socialist Rural Question in Our Country" Comrade Kim Il Sung gave an all-round exposition of the basic principles and ways for the final solution of the rural question under socialism and thus brightly illumined the road for propelling more vigorously the construction of socialist countryside and socialist construction as a whole.

Comrade Kim Il Sung gave an new revolutionary line on conducting economic construction and defence upbuilding in parallel and an original military line whose basic content is to train the whole army into a cadre army and modernize the whole army and place the entire people under arms and fortify the whole country, thereby indicating a most correct way for vigorously pushing ahead with socialist economic construction while reinforcing the self-defensi-

ve defence power as firm as an iron wall in view of the ever more undisguised manoeuvres of the U.S. imperialists to provoke a war and for actively meeting the great event of the unification of the fatherland.

Comrade Kim Il Sung newly expounded the class relations and basic motive power of the development of the society and duty of the proletarian dictatorship under socialism and put forth a great line on correctly combining the work of strengthening the political and ideological unity of the masses of the people with the class struggle and revolutionizing and working-classizing the whole society and thereby made it possible to solve with success the work of strengthening the unity of the masses of the people and leading them to communism by educating and remoulding them.

To give precedence to the ideological revolution in all work and educate and remould the people and thus revolutionize them is the unshakable line which Comrade Kim Il Sung has consistently adhered to in the whole course of leading the Korean revolution.

Comrade Kim Il Sung, since he started the revolutionary struggle, has built up a large contingent of communist revolutionaries by personally rearing a large number of cadres and put forth most correct lines and policies for steadily deepening and developing the work of educating, remoulding and revolutionizing the people in conformity with the demand of the development of the revolution in each period and led them to carry them through tirelessly.

The unitary ideological system of the Party has been firmly established in the whole Party and whole society, the unity of the Party and the masses and the political and ideological unity of the entire people have been strengthened as never before and our revolutionary ranks rallied close around the Leader have been solidly built up into invincible ones. This is the most precious success made in our revolution, which cannot be exchanged for anything, and is the firm guarantee of all our victories.

All the great revolutionary theories and outstanding strategic lines and policies of Comrade Kim Il Sung on the questions of revolution and construction and the questions of principle newly raised in the construction of socialism and communism have already clearly proved their correctness and vitality in practical life. They are a precious contribution to the enrichment of the treasure-house of Marxism-Leninism and the experiences of the international communist movement.

The whole period of the revolutionary activities of Comrade Kim Il Sung is run through with infinite loyalty to the revolution and unbounded love and solicitude for the people.

Comrade Kim Il Sung clarified time and again most correct lines and policies on independently realizing the unification of our fatherland by the Korean people themselves without any outside interference and clearly put forth the strategic and tactical lines of the South Korean revolution and the fighting tasks of the South Korean people in each period, thereby illumining the road of the struggle ahead of the South Korean people.

Today the South Korean people are arming themselves with the revolutionary ideas of Comrade Kim Il Sung and vigorously waging the anti-U.S., national-salvation resistance struggle in more active and various forms, including the armed struggle, along the road indicated by Comrade Kim Il Sung, drawing infinite confidence and courage from the prosperity and development of the northern half of the Republic, the bastion of the Korean revolution, and looking up to Comrade Kim Il Sung, the sun of the nation, as the great Leader of the 40 million Korean people.

No matter how barbarous repression and desperate "anti-communism" racket they may resort to, the U.S. imperialists and the Pak Jung Hi traitorous clique cannot block the revolutionary advance of the South Korean people and prevent their minds from turning to the northern half of the cause of the South Korean revolution and the unification of the fatherland will be surely achieved in our generation.

Today the prestige and dignity of our Republic under the leadership of Comrade Kim Il Sung, the great Leader, have enhanced extraordinarily for its great successes scored in the revolution and construction and the correct foreign policy based on the revolutionary principles of Marxism-Leninism and the independent stand, and the foreign friends supporting our revolutionary cause are increasing in number with each passing day.

Today the entire revolutionary peoples of the world infinitely respect and revere Comrade Kim Il Sung, the great Leader of the Korean people, looking up to him as an outstanding Marxist-Leninist of our era and one of the outstanding leaders of the world revolutionary movement. The cause of the Korean revolution explored by the anti-Japanese fighters in the forests of Mt. Paekdu, shedding their blood under the guidance of the Leader has not yet been brought to completion. The other half of our fatherland is trodden underfoot by the U.S. imperialists, the sworn enemy, and the enemy is making desperate attempt to unleash a war again.

Along the road illumined by Comrade Kim Il Sung in his report to the Conference of the Workers' Party of Korea and in the great five-point Political Programme, our entire people will accelerate the socialist construction to the north-half maximum, build up firmly our revolutionary base politically, ideologically, economically and militarily, and actively support the revolutionary struggle of the South Korean people to liberate earlier actively the unification of the fatherland and the nation-wide victory of the revolution.

"It Is Great Happiness and Honour Not Only of Korean People But of Fighting People of World to Have Such a Great Leader as Premier KIM IL SUNG"

Delegations of Various Countries Look Around Pyongyang

Delegations of various countries which came to our country to celebrate the 20th anniversary of the founding of the Republic, the auspicious national holiday of our people, inspected factories, enterprises, co-operative farms, educational and cultural institutions and recreation grounds in Pyongyang on September 2 and 3.

"We Learned How to Make Revolution"

The foreign guests who visited the Korean Revolution Museum expressed deep emotion, looking around the exhibits showing the whole course of the anti-Japanese armed struggle organized and waged under the personal leadership of Comrade Kim Il Sung, the respected and beloved Leader.

Having looked around the exhibits there with keen interest in the brilliant history of the revolutionary struggle of Comrade Kim Il Sung who has fought with all devotion, taking upon himself the destiny of the country and the nation for more than 40 years since he took the road of revolution at his early age, Momengoh Gabriel-Medard, Member of the National Council of Revolution of the Congo(B), who is heading the government delegation of the Congo(B), said:

I read many works of Premier Kim Il Sung when I was at home. Therefore, I knew, to a certain extent, about him and the Korean revolution. But inspecting the Korean Revolution Museum today, I have now realized that my knowledge was poor. What impressed me most here is the great idea of *Juche* of Premier Kim Il Sung.

The idea of *Juche* of Premier Kim Il Sung that the line of revolution in one's country should be set in conformity with its actual conditions and revolution should be carried out mainly with one's own strength, is a genuine revolutionary idea.

Premier Kim Il Sung enjoys so great an admiration of the world people because he correctly applied, deepened and developed Marxism-Leninism to suit the realities of Korea.

Premier Kim Il Sung is, indeed, a greatest Marxist-Leninist.

Biene Francois, member of the government delegation of the Congo(B), said:

It is the great happiness and honour not only of the Korean people but of the world peace-loving people and the people who have risen up in the anti-imperialist struggle to have such a great Leader as Premier Kim Il Sung.

Ndeye Awa Diop, General Secretary of the Regional Union of Women of Sine Saloum, delegate of the National Council of Women of Senegal, wrote in the guest-book:

This Museum clearly teaches all the revolutionaries who love the fatherland and the people how they should live and fight.

Marshal Kim Il Sung, the father of fraternal Korea, enjoys the infinite respect of all peoples, our Senegalese people in particular.

Prem Bahadur Kanskar, head of the delegation of the Nepal-Korea Friendship Association, wrote in the guest-book:

It was thanks to the able and sagacious leadership of Premier Kim Il Sung that Japanese imperialism suffered defeat. To get real leader means to get a man like Premier Kim Il Sung and to fight really means to fight with an anti-imperialist spirit and enthusiasm like the Korean people. Long live Premier Kim Il Sung and the Korean people!

After the inspection Peter Muebahlange, Secretary for External Affairs of the Southwest African People's Organization, who is heading the delegation of the Southwest African People's Organization, gave his impressions as follows:

I realised for the first time that in history there is such a revolutionary as Comrade Kim Il Sung who launched the political activities and revolutionary struggle at the age of 15.

Comrade Kim Il Sung, born into a revolutionary family, is not only the great revolutionary Leader of the Korean people but the father of Korea.

We came to this country to learn, for our revolution, from the Korean people who have come to be known to the whole world as a great people under the leadership of Comrade Kim Il Sung. We are very happy to have an opportunity to learn from the revolutionary lines and experiences of Korea.

Long live Comrade Kim Il Sung!

Edward Ndlovu, Deputy National Secretary of the Zimbabwe African People's Union, delegate of the Zimbabwe People's Union, said:

The Korean people could win a great victory, pulling through all difficulties in the bloody struggle against the enemy, because Comrade Kim Il Sung led the revolution.

I have never known in history such a person who has been waging a revolutionary struggle for more than 40 years. There is only one such person whom I know. He is none other than Comrade Kim Il Sung.

I learned here the determination and stand of the great revolutionary who was born into a revolutionary family.

I also realized that as he said, "As the fish cannot live without water, so the guerrillas cannot live without the people." I learned that he is a genuine brilliant commander of the people.

This Museum constitutes a seat of learning not only for the Korean people but for the peoples of other countries. It is all the more so for us Zimbabwe people fighting for independence and freedom.

The teachings of Comrade Kim Il Sung become a guiding compass not only for the people of this country but for the revolutionary peoples of other countries.

The wonderful successes made by the Korean people have been made possible thanks to the wise leadership of Comrade Kim Il Sung, the great Leader.

Saying that we Zimbabwe people and the South African people are looking up to the Democratic People's Republic of Korea with great hope, he went on:

I have no doubt that peace and security will be ensured in the world under the leadership of Comrade Kim Il Sung. This is because they can be achieved only under the leadership of such a great man as Comrade Kim Il Sung.

No matter how persistently the U.S. imperialists may resort to their provocative acts, they will never be able to attain their aim.

Because the U.S. imperialists can never break the will of the Korean people guided by Comrade Kim Il Sung.

At this museum we learned how to make revolution.

Under the wise leadership of Comrade Kim Il Sung the Korean people are making a great contribution to the struggle of the Asian, African and Latin-American peoples. If we pool our strength, small as our countries may be, we can defeat the U.S. imperialists.

The U.S. rascals have a history of no more than 200 years but Korea has a 5,000 year long history.

"The Brilliant Victory of the Korean People Was Possible Entirely Thanks to the Wise Leadership of Comrade Kim Il Sung"

Foreign guests went to the Memorial Hall of the Fatherland Liberation War.

Katsushike Matsui, Deputy Representative Director of the Japan-Korea Association, who is heading the delegation of the Japan-Korea Association, wrote in the guest-book after inspecting the memorial hall:

In the three year war the Korean people, under the wise leadership of Premier Kim Il Sung, defeated the U.S. imperialists who were boasting of being the "strongest" in the world, and defended the Democratic People's Republic of Korea and safeguarded peace in Asia.

Today's Korean people are taking a most determined stand against the repeated war provocations-maneuvres of U.S. imperialism, he wrote, and noted:

We are expressing our solidarity with the Korean people by opposing the military provocation manoeuvres of U.S. imperialism and demanding the withdrawal of the U.S. imperialist aggressor troops from South Korea.

Under the leadership of Premier Kim Il Sung, the outstanding Leader, seasoned in the protracted anti-Japanese armed struggle, the heroic Korean people shattered to pieces the "myth" about the "mightiness" of U.S. imperialism.

Today, the victorious Korean people are waging a stubborn struggle against the U.S. imperialists.

The incident of the "Pueblo" proves before the whole world that today, too, Korea is winning victory in the struggle against the U.S. imperialists.

After the inspection the Indian-Korean Cultural Society delegation made the following entry in the guest-book:

The Memorial Hall of the Fatherland Liberation War concentrically shows the matchless boldness and courage displayed by the sons and daughters of Korea.

The Korean people fear neither sacrifice nor suffering to defend the fatherland.

Therefore, the United States, the chieftain of world imperialism, had to lick the dust in Korea.

What has become all the more clear to me here in the memorial hall is that once the people of a country is determined and united to defend ideals, honour and their fatherland, however small the country is, even the most brutal power and most up-to-date weapon of destruction cannot subjugate them.

The patriotic struggle waged by the officers and men of the Korean People's Army under the leadership of Comrade Kim Il Sung, the respected and beloved Leader of the 40 million Korean people, will be recorded long in the world history, Toshiaki Yokoyama, Member of the Lower House and Chairman of the Financial Committee of the Japan Socialist Party, said after seeing the materials on the battles vividly showing the matchless heroism and immortal exploits performed by the officers and men of the heroic Korean People's Army who carried forward the brilliant revolutionary traditions of the glorious anti-Japanese armed struggle organized and waged by Comrade Kim Il Sung, the respected and beloved Leader, for defending the freedom and honour of the fatherland.

Sieh Allimamy Mansaray, Parliament Member, who is heading the government friendship delegation of Sierra Leone said:

The brilliant victory of the Korean people in the Fatherland Liberation War was possible entirely thanks to the wise leadership of Comrade Kim Il Sung.

I congratulate him on the great feats he has performed in the revolutionary struggle from his early age up to this date.

Sieh Allimamy Mansaray wished Comrade Kim Il Sung, the great Leader of the Korean people, good health and a long life.

"I Envy Korean Citizens Who Are Led by Marshal Kim Il Sung"

Visiting the Pyongyang Children's and Students' Palace members of women's delegations from various countries expressed their feeling of unbounded respect and reverence for Comrade Kim Il Sung, the great Leader, who has provided the Korean children with the happy life as we see today, by giving them the best and finest things in this land.

Seeing the happy children engaged in group activities in the room for studying the revolutionary activities of Marshal Kim Il Sung" and other study rooms, Carlina Diogo, First Assistant Secretary General of the All-African Women's Congress and Member of the Senegalese Parliament, said that I envy the Korean citizens who are led by Marshal Kim Il Sung. She added: I wish to live in Korea. I regret that I live far away from Korea.

Making her entry into the visitor's book before leaving the palace she wrote that it was very important for a state to pay attention to the women and children and deeply solicitude for them. Noting that respected and beloved Premier Kim Il Sung shows all care for the women and children of Korea, she wrote she would widely introduce and propagandize this fine example.

Members of the youth delegations also inspected the Pyongyang Children's and Students' Palace.

J.P. Duarte, Secretary of the World Federation of Democratic Youth, who is heading the WFDY delegation said:

The youth and students of Korea are being educated in the revolutionary ideas of Premier Kim Il Sung.

Now I have learned what it means to educate the students in the revolutionary spirit of independence, self-sustenance and self-defence.

I also grasped the essence of the ideas that the students should study theory in combination with practice.

I think it is thanks to the paternal solicitude of Premier Kim Il Sung that such ideas have come into full bloom in Korea.

Head of the delegation of the Algerian youth, Ahmed Chaouch Armed, National Secretary of Youth of the National Liberation Front of Algeria, pointed to the fact that the Korean people have the reliable reserves of the revolution. He stressed that I firmly believe the Korean revolution will triumph and the Korean people will accomplish their cause under the wise leadership of Marshal Kim Il Sung, the great hero and great Leader.

Meanwhile, many foreign delegations saw around the city of Pyongyang.

Moved by the pulsating life and indomitable mettle of Pyongyang, the capital of revolution and a hero city, Heidi Murray, Honored National Chairman of the Congress of Canadian Women, said:

If the U.S. imperialists dare launch an adventurous attack on the Korean people, failing to see this strength of Korea, they will be driven into pit of death, from which they will never come out.
